Mr. Magee,

Receipt acknowledged. I would observe that the County has not voluntarily produced a single record related to the January 19, 2026 incident, choosing instead to seek an Attorney General ruling on every request. Each delay only strengthens the inference that these recordings contain evidence the County does not want the public to see.

The recordings will eventually be produced — whether by AG decision, federal discovery, or court order. The only question is how much the County's credibility (and money) erodes in the meantime.
