Dear Sheriff Lindemann, Captain Laake:

This is a third communication regarding my wife, [REDACTED], currently incarcerated at Colorado County Jail.

I am writing to report a serious use-of-force incident that resulted in a medical emergency requiring hospital transport.

EXCESSIVE FORCE INCIDENT - January 19, 2026, approximately 9:00 PM:

Tonight, when a jailer brought my wife's medications, my wife asked to see the prescription bottles to verify the medications were correct. The jailer refused and reported to a Lieutenant that my wife was "refusing medication." My wife reached for the medication from the tray to take it. The jailer grabbed my wife's hand. The jailer and Lieutenant tackled my wife to the ground. My wife's head struck the concrete floor. My wife briefly lost consciousness. My wife lost bowel and bladder control.

DENIAL OF MEDICAL CARE: Staff refused to call EMS despite obvious head trauma. I had to call dispatch myself at 10:25 PM to request EMS evaluation. My wife was transported to Columbus Hospital for evaluation.

This incident occurred within 48 hours of the PREA violations and retaliation I reported. Sergeant Nunnely screaming at her on January 17 and threatening to revoke visitation.

Harold "Wayne" [REDACTED]
